

REMARKS/ARGUMENTS

The courtesies extended to the undersigned and the Applicants' representatives, Mr. Thomas B. Crates and Steven J. Hahn by Examiners Zeade and Husar are appreciated and acknowledged with gratitude.

During the interview Applicants' representatives displayed and explained a military specification light as disclosed and claimed in the present application and presented to the Examiners for the record a publication by the Air Force Operational Test and Evaluation Center, commenting upon and evaluating a light made in accordance with the application in comparison with the prior art Bruce light, among others. In addition, Applicants' representative pointed out that in the previous Office Action, specific reference had not been made to the declaration pursuant to 35 U.S.C. §1.132. This declaration was discussed and it was agreed that specific reference to this declaration would be made in the next Patent Office paper. The subject matter of claims 22 and 33 was discussed in connection with the prior art Bruce light and the Tzeng et al. Patent No. 6,005,191.

It was agreed that the claims as presently of record patentably defined over the art. This is reflected in the Interview Summary tendered to Applicants' representative at the end of the Interview, subject to an updated search.

Based upon the foregoing, Applicants submit that the application is now in condition for allowance. Applicant therefore requests an indication of allowability and a Notice of Allowance in due course. If the Examiner believes that there are other issues

Appl. No. 09/862,773
Response dated September 20, 2004
Response to Office Action of March 31, 2004

which require discussion, he is invited to contact the undersigned at the telephone number indicated below.

Respectfully submitted,

W. Thad Adams, III
Attorney for Applicant
